

Boomless Nozzle Kit – 7m Spray Width

SKU: ABK02

TTi's boomless nozzle kits are perfect for rough terrain and hard-to-reach areas. They allow you to target those areas that standard booms can't get to. The boomless range is well designed to give a consistent and even spray pattern. The boomless sprayer comes with interchangeable plates. With a quick and easy plate change, you can turn your sprayer from a 180-degree swath to a 90-degree swath to give the user greater control over their spraying and reduce chemical usage by not spraying areas unnecessarily.

- » Use with ATV, 3PL or ute sprayers
- » 7m Spray Width
- » Can be used as 180° swath or 90° swath by swapping nozzle plates
- » On / off ball valve tap
- » Steel mounting bracket
- » 10mm hose tail supplied
- » Ideal for rough country spraying & locust control
- » Optimum mounting height between 0.5m & 1.0m above ground
- » Minimum pump capacity 7L/min
